-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3-5, 7-11, 14-16, 18-20, 22-26, 29 and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Allwin, U.S. 4,848,462.

Regarding claims 1, 3-5, 7-11, 14-16, 18-20, 22-26, 29 and 30, Allwin discloses angled channels (34), extensions (38), a drive piston (16), a concave inner surface of slip 21 engaging the hollow mandrel (12), an angled top portion of the slip engaging the inclined surface of the window and finally a locking and releasing means (17,18).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 12 and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Allwin, U.S. 4,848,462 in view of Roberts, U.S. 6,164,377.

As to claims 12 and 27, Allwin discloses the slips having gripping engaging means. Allwin does not disclose the slips having carbide inserts. Roberts teaches use of slips having carbide inserts (28) to dig into and the inner wall of the casing. It would have been obvious to one having ordinary skill in the art at the time of the invention to arrange for the gripping surfaces disclosed by Allwin to have carbide inserts, as taught by Roberts to more firmly connect the slips to the casing.

Allowable Subject Matter

Claims 6, 13, 21 and 28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to previously rejected claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
